## "I don't eat Red Meat, I only eat Chicken and Turkey"

#### This is a common statement that I hear

After a life of suffering & misery

At the Slaughterhouse ...

62 million chickens, turkeys, ducks and geese regain consciousness before they die from loss of blood.

8.4 million are conscious when they enter the scalding tank.

1.7 million chickens, turkeys, ducks and geese die before they reach the slaughterhouse.

Birds die from heart failure, dislocation of the hip joint and having their skull crushed when the plastic drawers on the transporter are closed.

When we purchase chicken products, we support the suffering of these sentient animals

Please remember to buy only pasture-raised eggs and pass this email to your mailing list. Thank you! Lois Join on Facebook Group: <u>V I P Veggie In Progress</u> <u>Click to "like"</u> Compassionate Carnivores on Facebook www.compassionate-carnivores.org
